|----------------------------|-------------------------------------------------------------------------------------------|
| <b>Product Name</b>        | FabRICATOR® Lyophilized 5000 units                                                        |
| <b>Product Number</b>      | A0-FR1-050, A0-FR1-250                                                                    |
| <b>Product Lot Number</b>  | A0FR1-19C16G                                                                              |
| <b>Product Composition</b> | The FabRICATOR enzyme is lyophilized in PBS, pH 7.4, with a total of 5000 units per vial. |
| <b>Manufacturer</b>        | Genovis AB, Sweden                                                                        |
| <b>Storage Temperature</b> | -20°C                                                                                     |

| TEST                               | SPECIFICATIONS                                                                                                                                                  | RESULTS LOT |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Appearance</b>                  | White to light yellow powder                                                                                                                                    | Pass        |
| <b>Purity</b>                      | ≥95% homogeneity based on SDS-PAGE analysis.                                                                                                                    | Pass        |
| <b>Enzyme Activity by SDS-PAGE</b> | One unit of FabRICATOR digests ≥95% of 1 µg human IgG1 when incubated in PBS (10 mM sodium phosphate, 140 mM NaCl, 2.7 mM KCl), pH 7.4, at 37°C for 30 minutes. | Pass        |
| <b>Bioburden*</b>                  | Free from microbial contamination                                                                                                                               | Pass        |
| <b>Production Date</b>             |                                                                                                                                                                 | March 2026  |
| <b>Retest Date</b>                 |                                                                                                                                                                 | March 2010  |
