

Product Specification

Product Name deGlyclT™ MidiSpin

Product Number A0-IZ6-100

Product composition 1 ml* settled resin of endoglycosidase IgGZERO®

(EndoS) immobilized on highly cross-linked agarose. Agarose resins are suspended in 20%

ethanol/water (V/V)

Manufacturer Genovis AB, Sweden

Storage temp 4-8°C

Appearance White resin

Source IgGZERO® (EndoS) enzyme is cloned

from Streptococcus pyogenes and

overexpressed in E.coli. Enzyme is conjugated to

highly cross-linked agarose beads.

Sterility Absence of bacterial growth**

Stability 1 year at 4-8°C

*Immobilized enzyme activity 1 ml of settled resin removes ≥95% of 10 mg of human

IgG Fc glycans in 10 mM Phosphate, 150 mM NaCl, pH 7.4 for 30 min at 25°C as monitored by SDS-PAGE.

**Sterile tests Tested on Fluid Thioglycollate Medium and Blood Agar

and Sabouraud Dextrose Agar.
